
DAOM EDUCATIONAL OBJECTIVES

As a graduate of the DAOM program, you will be able to:

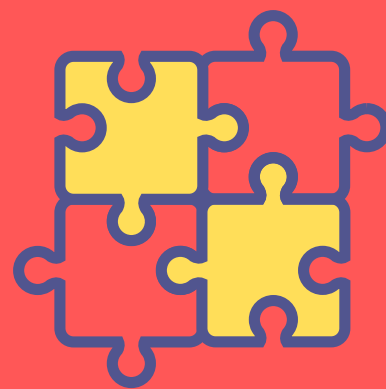

OBJECTIVE 1:

~Apply advanced TCM knowledge to prevent, diagnose and treat disease.

OBJECTIVE 2:

~Apply an understanding of the philosophy and theory of classical Chinese medical texts to support the well-being of patients and contribute to the maturation of theories into modern form through original thought.

OBJECTIVE 3:

~Apply specialization training to raise the level of patient care, teaching, and research.

OBJECTIVE 4:

~Apply scientific research methods and scholarly thinking to advance development in the field of TCM.

OBJECTIVE 5:

~Apply biomedical scholarship relevant to TCM practice to integrate and collaborate with TCM practitioners, other healthcare practitioners, and patients.

The educational objectives of the Postgraduate DAOM program provide guidelines for the development of the curriculum, assessment of the program's quality and success, and the measurement of the achievements of our graduates.
